

A Note from the Deputy Program Manager, Information Sharing Environment

Posted by Michael Howell, ISE Deputy Program Manager on Thursday, January 6, 2011

I'm delighted to begin work as the Deputy Program Manager for the Information Sharing Environment (ISE). In my new role under Program Manager (PM) Kshemendra Paul, I will focus on helping develop and implement the ISE to share terrorism and homeland security information across the nation.

I'm not kidding myself; I know this isn't an easy task. But after a few weeks on the job, I can see that Kshemendra has assembled a solid team of professionals, established robust governance and outreach with our partners and stakeholders, and is plugged in at the right places across the community to achieve success. Building on those efforts, I am reaching out to key partners and stakeholders to get up to speed on the programs and issues that we need to address together to continue to move forward.

Further, this is not the first time Kshemendra and I have worked together, and teaming with him again on building out the ISE is an incredible opportunity to help secure the nation. I know firsthand ? from working with Kshemendra at the Office of Management and Budget ? that he is an innovative thinker and strong leader. His work as PM will make the country safer, and I look forward to contributing to that mission.
