

## 2011 Department of Defense Intelligence Information Systems (DoDIIS) Worldwide Conference

Posted by Anonymouson Wednesday, February 16, 2011

Hosted annually by the DIA Directorate for Information Management (DS) and Chief Information Officer, DoDIIS Worldwide provides a unique opportunity for defense intelligence community members and industry peers to come together for knowledge sharing, training and discussion of current and future information technology (IT) challenges and requirements. The conference's 2011 theme, Secure and Collaborative Intelligence in Defense of the Nation, highlights the DIA Chief Information Officer's commitment to developing and maintaining secure and reliable networks for Department of Defense personnel, services and information technology customers. Through partnerships and collaboration, the intelligence community facilitates the secure collection, analysis and presentation of actionable intelligence to warfighters and decision makers in a timely, comprehensive manner.
